13. Please describe this person's greatest strengths as a Instructional Assistant.
Please keep your comments constructive and professional, abiding by the Principles of Community

- Excellent TA, he knows the material very well, always has explanations clear and deep to the topic.

- Greatest strength was being able to seamlessly build on concepts the professor set out in class and connect them to higher concepts while still being understandable. Several times he was able to answer some deeper questions that were beyond what was expected for us to know, but was able to answer them without sounding confusing.

- He was very nice and tried to connect with the students.

- made the class very fun and enjoyable
  very good at explaining

- Mohammad is super knowledgable and has a special talent to explain things in a way that everything makes sense. You can tell he is very passionate about his field of study.

- Mohammad was extremely helpful in his feedback for the lab reports. He was very knowledgeable in the lab subjects and always had helpful answers to questions about writing the lab reports. His lecture on imaginary numbers was also extremely helpful. Its the first time they have made a lot of sense, and has helped make them make sense in other classes.

- really cares about the students and makes learning really fun.

- Very knowledgeable about course material
